## **DETAILED ACTION**

### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, drawn to a portable telephone apparatus for telephone and hearing music, classified in class 455, subclass 556.1.
  - II. Claims 14-16, drawn to a (separate) audio apparatus with data compression means and removable storage and means for writing compressed music data to the removable storage, classified in either class 381/118 or class 381/334.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because invention I drawn to a portable telephone apparatus for telephone and hearing music, classified in class 455, subclass 556.1. The subcombination has separate utility whereas invention II is about a (separate) audio apparatus with data compression means and removable storage and means for writing compressed music data to the removable storage, classified in either class 381/118 or class 381/334. Invention I and II are clearly distinct from each other, as disclosed by the specifications,

Art Unit: 2685

invention I and invention II disclose two separate devices coupled to each other at connection means 15 (Figs. 1-2, and 4-7). See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
